

Smart City Traffic Forecasting

Traffic Volume Prediction using Machine Learning

This application predicts traffic volume at different city junctions based on:

- Junction Number
- Date Information
- Time Information

Model Used: Random Forest Regressor

Model Accuracy (R² Score): 96.9%

Predict Traffic Volume

 Predicted Traffic Volume: 116.21 vehicles

 Heavy Traffic Expected

Project Information

Project Title: Smart City Traffic Forecasting

Domain: Data Science & Machine Learning

Tech Stack:

- Python
- Pandas
- Scikit-Learn
- Matplotlib
- Streamlit

Developed By: Shaik Mahek Sharfuddin
